

## BS 218 Forging Brass

### EQUIVALENT SPECIFICATION

Grade: BS218  
Standard: BS 218

### CHEMICAL SPECIFICATION

Cu	Pb	Fe	Zn	imp	Mn				
56.5 - 60	1.0 - 1.5	0.3	Rem	0.5	0.5				

### DESCRIPTION:

BS 218 brass is a standard for copper-based brass alloys, typically used in applications like forgings, pipe fittings, and hardware. It has a specific chemical composition and mechanical properties, including good machinability and suitability for hot forming.

### TYPICAL APPLICATIONS:

Forging, Hardware, Pipe Fittings, Machining

### PRODUCT

Rods & Bars  
Hollow  
Sections & Profiles  
Ingots  
Billets

### SIZE RANGE

Dia. 8.00 mm to 101.00 mm

### OTHER ALLOYS

Free Cutting Brass  
Forging Brass  
Naval Brass  
Leaded Brass

Lead Free Brass  
Silicon Brass  
Eco Brass  
DZR Brass

Low Leaded Brass  
High tensile Brass  
Bismuth Bronze  
Copper & Copper Alloys
