

C27450

EQUIVALENT SPECIFICATION

Grade: C27450

Standard: ASTM B 124

CHEMICAL SPECIFICATION

Cu	Pb	Fe	Zn	Imp.					
60 - 65	0.25	0.35	Rem	0.5					

DESCRIPTION:

Jalram Metal Alloys lead free C27450 (Alloy C2745) can be substituted for Alloy 377 without compromising the integrity of the finished part. This indicates that a product can be made that delivers similar strength, corrosion resistance, and quality at a cost savings benefit.

TYPICAL APPLICATIONS:

Typically, the end use is lead-free plumbing products that meet plumbing legislative requirements. Alloy C2745 brass profiles come in various shapes, such as, hexagon, round, square, and other shaped brass rods and brass bars.

PRODUCT

Rods & Bars
Hollow
Sections & Profiles
Ingots
Billets

SIZE RANGE

Dia. 8.00 mm to 101.00 mm

OTHER ALLOYS

Free Cutting Brass
Forging Brass
Naval Brass
Leaded Brass

Lead Free Brass
Silicon Brass
Eco Brass
DZR Brass

Low Leaded Brass
High tensile Brass
Bismuth Bronze
Copper & Copper Alloys
