

C48500 - Naval Brass High Leded

EQUIVALENT SPECIFICATION

Grade: C48500 Naval Brass High Leded

Standard: B-21

CHEMICAL SPECIFICATION

Cu	Pb	Fe	Zn	Imp.	Sn				
59 - 62	1.3 - 2.2	0.1	Rem	0.4	0.5 - 1.0				

DESCRIPTION:

Jalaram Metal Alloys – C48500 is great for soldering, good for brazing and provides a high degree of machinability. This alloy also has good corrosion resistance which makes it excellent for the marine industry.

TYPICAL APPLICATIONS:

Building hardware, Fasteners, Electrical, Industrial, Marine, Ordnance.

PRODUCT

Rods & Bars
Hollow
Sections & Profiles
Ingots
Billets

SIZE RANGE

Dia. 8.00 mm to 101.00 mm

OTHER ALLOYS

Free Cutting Brass
Forging Brass
Naval Brass
Leded Brass

Lead Free Brass
Silicon Brass
Eco Brass
DZR Brass

Low Leded Brass
High tensile Brass
Bismuth Bronze
Copper & Copper Alloys
