

C48600

EQUIVALENT SPECIFICATION

Grade: C48600

Standard: ASTM B-283

CHEMICAL SPECIFICATION

Cu	Pb	As	Zn	Imp.	Sn				
59 - 62	1 - 2.5	0.02 - 0.25	Rem	0.4	0.3 - 1.5				

DESCRIPTION:

Jalaram Metal Alloys Copper UNS C48600 alloy is a type of naval brass. Naval brasses are a category of copper alloys that are known to possess good strength and rigidity. They are also resistant to fatigue, galling, wear, and stress corrosion cracking.

TYPICAL APPLICATIONS:

Mainly in Naval application.

PRODUCT

Rods & Bars
Hollow
Sections & Profiles
Ingots
Billets

SIZE RANGE

Dia. 8.00 mm to 101.00 mm

OTHER ALLOYS

Free Cutting Brass
Forging Brass
Naval Brass
Leaded Brass

Lead Free Brass
Silicon Brass
Eco Brass
DZR Brass

Low Leaded Brass
High tensile Brass
Bismuth Bronze
Copper & Copper Alloys
