

HPB57-3

EQUIVALENT SPECIFICATION

Grade: HPB57-3

Standard: GB T 5231

CHEMICAL SPECIFICATION

Cu	Pb	Fe	Zn	Imp.					
57 - 59	1.7 - 3	0.8	Rem	1.5					

DESCRIPTION:

HPb57-3, also called China Normal brass, a variant of CW614N brass, is a local industry standard, with little Fe contents in composition, and lower costs than CW614N. It's widely used as a standardized material in China and accepted by most global markets and customers.

TYPICAL APPLICATIONS:

Air conditioning pipes, refrigerator pipes, oil pipes, water supply pipes and various mechanical supporting materials, automotive synchronizer gear rings, marine pumps, valves, structural parts, friction accessories, etc.

PRODUCT

Rods & Bars
Hollow
Sections & Profiles
Ingots
Billets

SIZE RANGE

Dia. 8.00 mm to 101.00 mm

OTHER ALLOYS

Free Cutting Brass
Forging Brass
Naval Brass
Leaded Brass

Lead Free Brass
Silicon Brass
Eco Brass
DZR Brass

Low Leaded Brass
High tensile Brass
Bismuth Bronze
Copper & Copper Alloys
